Exporting Paperless Saves You Work

Tired of manually filling out export invoices each time you need to ship something? Go online with UPS Paperless Invoice! Not only does it save you time, it can also help speed up the clearance of your shipments.

Timely Customs Clearance

UPS Paperless Invoice allows shipments to clear customs in many countries, using electronic data in lieu of paper forms that may be more error prone. Your shipment information is transmitted securely, promptly and correctly. With electronic transmission, shipment processing can begin earlier, enabling timely customs clearance.

Earth Friendly

Using UPS Paperless Invoice is an easy way to go green. Producing and disposing of paper pollutes land, air and water, threatens wildlife and affects human health. A single sheet of paper may seem insignificant, but using thousands of sheets each day can have a huge impact on the environment.

Online Storage

Archive and access files the easy way with UPS Paperless Invoice. Because your data is stored on a secure electronic platform, you can be sure that it is accurate and available whenever and wherever you need it.

Supply Chain Optimisation

UPS Paperless Invoice frees you of the unnecessary effort of filling out paper forms. When you know that your supply chain is well managed, you can focus your time and energy on other aspects of your business.
