### Optimise Your Business Processes with UPS WorldShip

Improve your company's shipping efficiency with UPS WorldShip! If you ship more than just a couple of packages each week, you can save time and money by connecting WorldShip to your computer service and accounting systems. WorldShip can also help you respond to customers faster and reduce costly entry errors.

As you can see, UPS provides you with multiple ways to integrate WorldShip with your business:

- **Batch Import/Export.** Import a file containing addresses, customer orders, or other shipment information, or export shipping history to your internal systems.
- **Keyed Import.** Allow WorldShip to recognise a customer's order simply by entering or scanning a unique identifier, such as a Purchase Order number.
- **Hands-Off Shipping.** Schedule WorldShip to pull addresses from your order entry database and automatically print shipping labels at designated times.
- **XML Auto-Import.** Automate shipment processing using XML code.

UPS Worldship even gives you access to the complete range of UPS services such as accepting billing codes and emailing shipping status. You can streamline your company's shipment processing by customising the settings to match your shipping preferences.
